

GARDNER

SURE line

SURE CAST

A premium quality copolymer line, developed to offer the boat and surf angler everything. The smooth finish and consistent diameter, coupled with unrivalled abrasion resistance and knot strength, gives ultimate performance that no other line can come near.

Sure Cast performs superbly with both fixed spool and multiplier reels, giving faultlessly smooth casting and retrieves, enabling you to realise the full potential of your rod and reel.

This is a fishing line that relishes being 'used and abused' and is available at a price that puts performance within the grasp of all anglers.

SURE SHOCK

Whether you want to pile on the power to hurl your baited rig out to a productive mark, or have confidence that your leader can easily cope with the rigours of fishing over rough ground, then Sure Shock is your No.1 choice.

This high performance copolymer shock leader gives ultimate casting performance thanks to its silicone treatment, reducing resistance in the early stages of a cast when pressure on the line is at its greatest. It is easy to handle, knots well, and gives unbeatable abrasion resistance and tensile power.

Ultra reliable, extra strong and durable, Sure Shock gives you exceptional performance in all areas.

SLINKY

With a smooth and supple feel, this easy handling hi-tech co-polymer is hugely versatile and so easy to use - essential in any sea angler's armoury.

Slinky excels as a shockleader as it knots strongly and neatly and, with its suppleness, flows freely through the rod rings with minimal line slap giving smoother, longer casts - ideal for the surf casters!

This suppleness also makes Slinky a fantastic trace material, enhancing the action of your bait or lure without compromising any of its other qualities such as abrasion resistance or low memory.

Slinky also crimps superbly for super-neat traces.

80 - 100m spools in Clear

40lb (18.1kg)	0.55mm	100m	£4.99
50lb (22.7kg)	0.65mm	100m	£5.99
60lb (27.2kg)	0.70mm	100m	£6.49
80lb (36.3kg)	0.75mm	100m	£6.99
100lb (45.4kg)	0.90mm	80m	£7.49

MIRAGE 100% FLUOROCARBON

Not all fluorocarbon mainlines are the same - the unique resin formula of Mirage sets it aside as a trace material.

- Fast sinking and lays flat on the bottom at all times.
- Refractive index of 1.42 is virtually invisible in water.
- Best linear and knot strength and higher abrasion resistance than any other premium f/c mainline.
- Non hydroscopic - does not absorb water or lose strength after long periods immersed in water.
- Low stretch enhances bite indication and feedback.
- UV resistant - does not deteriorate in sunlight.

100m spools

Note - Our 'rated' strengths refer to test results using a blood knot. Do not be fooled by other brands' claims which use a linear (unknotted) rating, meaningless to us anglers (unless you fish without a knot on your traces!)

8.5lb (3.9kg)	0.28mm	£10.99
10lb (4.5kg)	0.31mm	£10.99
12lb (5.4kg)	0.33mm	£10.99

18lb (8.1kg)	0.40mm	£13.99
20lb (9.1kg)	0.44mm	£14.99
25lb (11.25kg)	0.47mm	£15.99
30lb (13.5kg)	0.52mm	£18.99

SURE FLOW

A speciality, ultra-low memory material, developed and manufactured to give a really smooth, supple feel. Sure Flow knots well and stands up to the rigours of angling better than any other.

Snoods and traces work better when tied with Sure Flow as it resists tangling during casting and the bait can move more naturally.

Once it is straightened, it remains straight. Even after a hard battle it will remain straight, giving you optimum presentation, strength and reliability time and time again.
